# Module in mental health skills training and CPD for General Practitioners

HETI is proud to present Mental Health Assessment and Management Skills Module accredited by ACRRM, RACGP & GPMHSC

**GP Mental Health Assessment & Management Skills Module**  
SPREAD OVER 3 DAYS

**Date** 5th, 9th and 12th June 2021

**Location** Online

**Cost** \$500

This module aims to develop skills in comprehensive mental health assessment and management planning, derived from the person's experiences of illness, and is based on a recovery-focused model. Participants benefit from an interactive experience with experts from psychiatry, general practice, trauma-focused care and addiction medicine, along with shared perspectives from persons with lived experience. We anticipate this module will take 13.5 hours to complete. This includes an estimated 2.5 hours of independent activities and 11 hours of group learning spread over 3 days.

## Graduate Certificate

# Psychiatric Medicine

RACGP and ACRRM accredited

**Specialty mental health education for General Practitioners is available from HETI Higher Education. Study single units to meet professional development needs.**

### Course outcomes overview

Students of HETI Higher Education's Graduate Certificate will develop their abilities to:

- Identify strategies to balance personal wellbeing and professional responsibilities in order to support development as an ethical reflective practitioner who is inclusive and future-focused through ongoing, innovative work-integrated life-long learning.
- Integrate management of a patient's physical and mental health.

### Why study with HETI?

Your learning experience will be enriched through our commitment to:

- Excellence in postgraduate education delivered through our broad network of academics and clinical experts.
- Recovery oriented, contemporary, evidence-based curriculum.
- Collaboration with, and learning alongside, a diverse range of mental health practitioners including psychiatry trainees and rural and remote specialists.
- Flexible study options and online resources.

### Choose your pace of learning

Our Psychiatric Medicine Framework is designed to provide GPs with the opportunity to extend their mental health knowledge and skills beyond those obtainable through skills training workshops. The courses have been designed to meet the needs of GPs, with the topics mapped to the Five Domains of General Practice. Students can choose their pace of learning and may progress through to Masters level.

- 2 units per semester (completing the Graduate Certificate in one year)
- 1 unit per semester (completing the Graduate Certificate in two years)\*
- Studying a single unit to meet specific professional development needs.

*\*Students normally must complete a degree level in not more than 2 years, with variations to this having to be applied for.*

### GRADUATE CERTIFICATE

SEMESTER 1	Recovery Focused Psychiatric Medicine
	A Whole Person Approach to Psychiatry
SEMESTER 2	Collaborative Mental Health Care
	Introduction to Contemporary Psychiatric Interventions
